

Q:1. Write a program that will print the stars in format given below.

```
*
***
*****
*****
*****
*****
*****
*****
***
*
```

Solution:

```
for i=1:2:9
    for j=1:i
        fprintf('*')
    end
    fprintf('\n')
end

for i=9:-2:1
    for j=i:-1:1
        fprintf('*')
    end
    fprintf('\n')
end
```
