

Standard Terminology for Livestock, Meat, and Poultry Evaluation Systems¹

This standard is issued under the fixed designation F2463; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This terminology contains related definitions and descriptions of terms used or likely to be used in livestock, meat, and poultry evaluation standards. The purpose of terminology is to promote clear understanding and interpretation of the standards in which they are used.

1.2 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 ASTM Standards:²

F2340 Specification for Developing and Validating Prediction Equation(s) or Model(s) Used in Connection with Livestock, Meat, and Poultry Evaluation Device(s) or System(s) to Determine Value

F2341 Practice for User Requirements for Livestock, Meat, and Poultry Evaluation Devices or Systems

F2342 Specification for Design and Construction of Composition or Quality Constituent Measuring Devices or Systems

F2343 Test Method for Livestock, Meat, and Poultry Evaluation Devices

F2925 Specification for Tenderness Marketing Claims Associated with Meat Cuts Derived from Beef

3. Terminology

accurate, *adj*—when performance or value of a device, as determined by tests made with a suitable reference material, conforms to the standard within the allowable tolerance.

¹ This terminology is under the jurisdiction of ASTM Committee F10 on Livestock, Meat, and Poultry Evaluation Systems and is the direct responsibility of Subcommittee F10.50 on Terminology.

Current edition approved Sept. 1, 2012. Published October 2012. Originally approved in 2005. Last previous edition approved in 2012 as F2463 – 12. DOI: 10.1520/F2463-12A.

² For referenced ASTM standards, visit the ASTM website, www.astm.org, or contact ASTM Customer Service at service@astm.org. For *Annual Book of ASTM Standards* volume information, refer to the standard's Document Summary page on the ASTM website.

beef, *n*—flesh of adult domestic cattle used as food. **F2340, F2341, F2343**

carcass, *n*—harvested livestock or poultry, whether eviscerated or not. **F2341, F2343**

DISCUSSION—A carcass may or may not be split into separate sides, one or both sides may be measured or evaluated.

carcass primal, *n*—basic major cuts into which carcasses and sides are separated.

carcass subprimal, *n*—smaller cuts derived from primal cuts.

evaluation device, *n*—equipment designed to measure composition or quality constituents used to determine the value of live animals, carcasses, and individual cuts of meat. **F2340, F2341, F2342, F2343**

evaluation system, *n*—device or group of devices used to measure and record composition or quality constituents used to determine the value of live animals, carcasses, and individual cuts of meat. **F2340, F2341, F2342, F2343**

independent third party, *n*—unbiased person or entity that is knowledgeable with subject matter expertise. **F2340, F2343**

livestock, *n*—cattle, sheep, swine, goat, horse, mule, or other equine. **F2341, F2342, F2343**

longissimus, *n*—muscle that arises as the middle and largest entity of the sacrospinal muscles that is attached by some of its fibers to the lumbar vertebrae, inserted into all the thoracic vertebrae, and depresses the ribs and extends the spinal column and bends it to one side. **F2340, F2925**

meat, *n*—edible product(s) harvested by the livestock or poultry packing industries. **F2341, F2342, F2343**

poultry, *n*—chickens, turkeys, ducks, geese, and other domesticated fowl. **F2341, F2342, F2343**

quality constituents, *n*—measurable characteristic, such as, but not limited to pH, marbling, tenderness, or color. **F2342, F2343**

value, commerce, *n*—measure of economic worth in commerce. **F2340, F2341, F2343**

4. Keywords

4.1 livestock; meat; poultry; evaluation systems

F2463 – 12a

ASTM International takes no position respecting the validity of any patent rights asserted in connection with any item mentioned in this standard. Users of this standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, are entirely their own responsibility.

This standard is subject to revision at any time by the responsible technical committee and must be reviewed every five years and if not revised, either reapproved or withdrawn. Your comments are invited either for revision of this standard or for additional standards and should be addressed to ASTM International Headquarters. Your comments will receive careful consideration at a meeting of the responsible technical committee, which you may attend. If you feel that your comments have not received a fair hearing you should make your views known to the ASTM Committee on Standards, at the address shown below.
