

30 Instruments & Controls

GS 130-1	Automatic Pipeline Sampling of Liquid Hydrocarbons
GS 130-2	Electrical & Instrument Requirements for Rotating Machinery
GS 130-3	Pre-delivery Testing & Inspection of Instrumentation & Control Systems
GS 130-5	Flow Elements for Plant Control and Measurement Service
GS 130-6	Actuators For Shutoff Valves
GS 130-8	Specification for the Supply of Control Systems
GS 130-9	Specification for the Supply of Shutdown Systems
GS 130-10	Specification for the Supply of Fire & Gas Systems
GS 130-11	Specification for Oil & Gas Metering Systems
GS 130-12	Supply of Wellhead Control Systems
RP 30-1	Instrumentation & Control - Design and Practice
RP 30-2	Instrumentation & Control - Selection and Use of Measurement Instrumentation
RP 30-3	Instrumentation & Control - Selection and Use of Control and Shut-Off Valves
RP 30-4	Instrumentation & Control - Selection and Use of Control and Data Acquisition Systems
RP 30-5	Instrumentation & Control - Selection and Use of Equipment for Instrument Protection Systems
RP 30-6	Design Philosophy for Protective Instrument Systems
RP 30-7	Instrumentation & Control - Design Philosophy for Fire and Gas Detection and Control Systems
RP 30-8	Instrumentation & Control - Electromagnetic Compatibility for Instrumentation and Control Systems
RP 30-9	Instrumentation & Control - Design of Instrument Database Systems
RP 30-10	Selection Supply and Installation of Compression Fittings
RP 30-11	Instrumentation and Control - Symbology for Chemical Processing Plant
RP 30-12	Instrumentation & Control, Field Instrumentation for Chemical processing plant
