Contents

<u>1. Scope</u>	3
<u>2. Reference documents</u>	3

1. Scope

The purpose of this general specification is to give general requirements and recommendations for the design and operation of subsea production systems.

2. Reference documents

The reference documents listed below form an integral part of this General Specification. Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the EFFECTIVE DATE of the CONTRACT.

The following document [ISO 13628-1](#) shall be considered as reference document.

Choice of reference documents

Where national regulations exist, their provisions and those of the standards and codes to which they refer shall apply, supplementing or amending the provisions of this document.

If there are no national regulations covering all or part of the subject of this document, the reference documents shall be strictly applied.
