Contents

1. Scope	3
2. Reference documents.....	3

1. Scope

The purpose of this specification is to define functional requirements for ROT (Remotely Operated Tool) systems and interfacing equipment.

ROV (Remotely Operated Vehicles) are not covered in this standard.

2. Reference documents

The reference documents listed below form an integral part of this General Specification. Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the EFFECTIVE DATE of the CONTRACT.

The following document [ISO 13628-9](#) shall be considered as reference document.

Choice of reference documents

Where national regulations exist, their provisions and those of the standards and codes to which they refer shall apply, supplementing or amending the provisions of this document.

If there are no national regulations covering all or part of the subject of this document, the reference documents shall be strictly applied, as supplemented by the provisions of this document.

Recognition of reference documents

Only the main reference documents are mentioned; the CONTRACTOR shall be responsible for complying with all secondary reference documents dealing with the subject of this document.
